VALIDASI DATA BULK CUSTOMER

Skema Proses

1. Anomali

Proses Anomali Mengetahui hasil data anomali

The screenshot displays the Anomali application interface. On the left is a Menu Navigator with options like Master Data, Mapping Data, Setting Configuration, Analisa, Retail Customer, Validasi Data Bulk Customer, and Anomali. The main area is divided into three sections: Form Search, Grid Penyuluran, and Status Anomali. The Form Search section includes fields for Start Date, End Date, RD, ID Pelanggan, and Nama Pelanggan, with Search and Reset buttons. The Grid Penyuluran section shows a table of data with columns for Station Name, Tanggal Penguk..., Volume, Energy BBTUD, Counter Volume (MMSCF), and Counter (BE). The Status Anomali section shows a list of descriptions. The bottom section, Data Pendukung, shows a table of document uploads.
